NATURAL GAS RATES TO CHANGE FOR ATMOS ENERGY--KIRKSVILLE DISTRICT CUSTOMERS UNDER SCHEDULED WINTER FILING

Jefferson City (October 31, 2002)---Natural gas rates will increase for Kirksville District natural gas customers of Atmos Energy Corporation under a scheduled winter season filing reviewed and accepted by the Missouri Public Service Commission. This filing primarily reflects estimated changes in the cost of natural gas for the upcoming winter season and changes in the Actual Cost Adjustment (ACA) factor as well as any refunds from suppliers. This rate change will take effect on November 1, 2002.

The ACA is a mechanism which tracks actual natural gas costs over a 12 month period. It ensures that what the natural gas company pays to its suppliers for natural gas is in fact what it recoups in rates from its customers. The ACA makes adjustments to rates if any over or under collections of natural gas costs occurred at the end of the 12 month period.

A residential customer currently pays \$0.33272 per Ccf (100 cubic feet of gas). Under this filing, the rate will increase to \$0.54598 per Ccf, an increase of approximately 21.3 cents per Ccf. **The effect on a typical residential heating customer for the winter season (November to March) is an increase of approximately \$189 when compared to rates currently in effect.**

Approximately 60% to 70% of a customer's natural gas bill reflects the cost of natural gas from wholesale suppliers. The wholesale cost of natural gas (the cost your local natural gas company must pay to its suppliers for natural gas) is not regulated by the Missouri Public Service Commission. The wellhead cost of natural gas is unregulated and is primarily driven by supply and demand. The Missouri Public Service Commission does have regulatory review authority to ensure that regulated gas companies make prudent decisions in securing natural gas supplies for their customers.

Atmos serves approximately 5,900 natural gas customers in its Kirksville District which includes the Missouri counties of Macon, Adair and Schuyler.
